

# FREIGHTSTAT

## Short Sea, Tunnel & Western Channel Freight Traffic

FreightStat provides up to date monthly details and analysis, by operator, of accompanied and unaccompanied freight traffic on Short Sea, Tunnel and Western Channel ferry routes. Traffic on Irish routes is consolidated by sector for six months. The authoritative report complements IRN's existing FerryStat report on monthly passenger, car and coach traffic across all UK ferry routes. The reports are an invaluable source of reference for anyone who wishes to track development in the UK ferry industry and understand the dynamics of this rapidly changing market.

**Price:** Annual Subscription - £300 (Plus VAT) – This includes 12 monthly reports
